

PARTNERSHIP OFFER

Topic / title of the proposed project

We are interested in the transnational cooperation project in the subject of renewable energy and waste management.

Brief summary of the project idea

We are aware that proper waste management and the use of renewable energy will have a positive impact on the environment in our LAG. Therefore it is very important to change the attitude of the inhabitants of our LGD and investment growth of renewable energy and waste management. We are looking for the Partner who will share with us his experience in waste management or renewable energy sources (RES).

Objective:

Initial position / background / local context of the proposed project

"The Pilica Valley Association" is the LAG lying in the central part of Poland. We are one of the major LAG in the Lodz Region and the Polish territory. The LAG "Pilica Valley Association" is located in the southeastern part of the Lodz Region. It includes 10 municipalities located in the neighborhood of the Sulejowski lake and middle reaches of the Pilica river.

Proposed objectives / activities

In the project we would like to take part in study visits, thanks which we learn how to implement in the LAG projects on RES or waste management. In addition, we plan to conduct a series of training of waste management issues or the use of RES for the residents of our LAG. These trainings would be conducted with the participation of the Partner.

Country and /or kind of partner you are looking for

We are looking for the Partner - LAG who will share with us his experience in waste management or RES.
